STATEMENT OF ORIGINALITY

This undergraduate thesis is my original work and all information contained in this project paper which is derived from the work of others has been given an award by citing the name of the source author correctly. All the contents of this undergraduate thesis are fully the responsibility of the author.

Name : Clara Liagina

NIM : 1131001070

Signature : 

Date : May 16th, 2017

STATEMENT OF APPROVAL

This Undergraduate Thesis is prepared and presented by:

Name : Clara Liagina
NIM : 1131001070
Program : Manajemen
Faculty : Faculty of Economics and Social Sciences (FEIS)
Judul Skripsi : The Inter-Temporal Relationship of Non-Performing Loan and Cost Efficiency of Indonesian Commercial Banks during Period 2013Q1 to 2016Q3

Has been approved by the Board of Examiners and accepted as a partial fulfillment of the requirements for Undergraduate Degree in Management Program, Universitas Bakrie.

BOARD OF EXAMINERS

Supervisor I : Anon Kuswardono, MBA

Examiner I : Dr. Dudi Rudianto, M.Si

Examiner II : Ir. Deddy Herdiansjah, Ph.D

Established in : Jakarta

Date : May 16th, 2017

ACKNOWLEDGEMENT

In the name of Allah, the Most Gracious and the Most Merciful

Foremost, I would like to express my sincere gratitude to my honourable supervisor **Mr. Anon Kuswardono, SE., MBA**, for his continuous support, excellent guidance, patience, motivation, enthusiasm, and immense knowledge, so I could successfully finish this skripsi. **Dr. Dudi Rudianto, SE., M.Si** and **Ir. Deddy Herdiansjah, M.Sc., MBA., Ph.D.**, as my honourable examiners for their encouragement, insightful comments, and their contribution in completing this skripsi.

I have no words to express my gratitude for and I am indeed so grateful to my parents, sisters, and brother who have been wholeheartedly loving, encouraging and supporting me through all the years. This skripsi is heartily dedicated to my caring family who always prays and wishes the best for me. Thank you for being my reason to look forward to the next day. My love was, is and will always be with all of you.

I wish to present my special thanks to **Scherzo Wahid Naiborhu, BSM** for his never ending support, motivation, for the shoulder to cry on and for being a friend, family, lover, and companion of me through this topsy turvy journey.

For the persons I can run to when I feel lonely, **Anisa Rizky, Ratu Rika, Galih Pratiwi**, and **Putri Eka** thanks for being around when my times get hard and making me laugh when I did not even want to smile.

A sincere gratitude to my friends during these memorable university life: **Rainy Syafitri, Dara Azizah, Nurul Fauziah, Putri Dwi, Putri Islamiati, Cut Zulfa, Bunga Badzlina, Sobrina Fuadiah**, and **Erin Mailina** who shared their stories, times and knowledges with me.

To those who indirectly contributed in this research, your kindness means a lot to me. Thank you very much.

**STATEMENT OF APPROVAL OF UNDERGRADUATE THESIS FOR
ACADEMIC PURPOSES**

As an academic community of Universitas Bakrie, I who undersigned in below:

Name : Clara Liagina
NIM : 1131001070
Program : Manajemen
Faculty : Economics and Social Science
Type of Thesis : Empirical Study (Skripsi)

For the development of science, agreed to grant **Universitas Bakrie Non-eksklusif Royalty-free Rights (*Non-exclusive Royalty-Free Right*)** for my undergraduate thesis, entitled:

The Inter-Temporal Relationship of Non-Performing Loan and Cost Efficiency of Indonesian Commercial Banks During Period 2013Q1 to 2016Q3

With the non-exclusive Royalty Free Rigths, Universitas Bakrie holding rights to keep, avert media/ format, manage database, maintain, and publish my final assignment as far as my name as author / creator and owner of Copyright is mentioned.

THE INTER-TEMPORAL RELATIONSHIP OF NON-PERFORMING LOAN AND COST EFFICIENCY OF INDONESIAN COMMERCIAL BANKS DURING PERIOD 2013Q1 TO 2016Q3

Clara Liagina

ABSTRACT

This research investigates the inter-temporal relationships between bank efficiency, especially cost efficiency and non-performing loan (NPL) of Indonesian Commercial Banks in the period of 2013Q1 to 2016Q3 to test two hypotheses introduced by Berger and deYoung (1997): ‘Bad Luck’ and ‘Bad Management’. This research covers the periods January 2013 – September 2016 using time series and quarterly -published report data of Central Bank of Indonesia (Bank Indonesia) with 10 commercial banks in Indonesia. The Data Envelopment Analysis (DEA) approach is used to measure cost efficiency of commercial banks and Vector Autoregressive (VAR) model is used to test the two hypotheses ‘Bad Luck’ and ‘Bad Management’. The finding of DEA indicates that Bank Permata (BNLI) in every quarter as the most cost efficient in managing its cost with all efficiency score is equal to 1. The average cost efficiency of commercial banks is 0.9294 or 92.94%. The finding also indicates that inefficiency problem of banks lies in the input side rather than output side. This results support the “bad management” hypothesis proposed by Berger and De Young (1997) which suggested that decrease in measured bank efficiency is generally followed by increases in non performing loan. The bad management hypothesis indicates the major risks facing commercial banks are caused by internal problem.

Keyword: Cost Efficiency, Data Envelopment Analysis, ‘Bad Luck’ and ‘Bad Management’.

THE INTER-TEMPORAL RELATIONSHIP OF NON-PERFORMING LOAN AND COST EFFICIENCY OF INDONESIAN COMMERCIAL BANKS DURING PERIOD 2013Q1 TO 2016Q3

Clara Liagina

ABSTRAK

Penelitian ini meneliti tentang hubungan inter-temporal dari efisiensi bank, dalam hal ini efisiensi biaya dan Non-performing Loan (kredit macet) pada Bank Umum Indonesia pada periode 2013Q1 – 2016Q2 untuk menguji dua hipotesis yang diperkenalkan oleh Berger dan deYoung (1997): ‘*Bad Luck*’ dan ‘*Bad Management*’. Penelitian ini mencakup periode Januari 2013 – September 2016 menggunakan data *time series* dan laporan keuangan kuartal yang dirilis oleh Bank Indonesia dengan sample 10 Bank Umum di Indonesia. *Data Envelopment Analysis* (DEA) digunakan dalam mengukur efisiensi biaya pada bank umum dan *Vector Autoregressive* (VAR) digunakan untuk menguji dua hipotesis ‘*Bad Luck*’ dan ‘*Bad Management*’. Hasil DEA menunjukkan Bank Permata (BNNI) merupakan bank dengan efisiensi biaya paling efisien dengan skor 1 di setiap kuartal. Rata-rata efisiensi biaya Bank Umum di Indonesia adalah 92.94%. Hasil dari penelitian ini juga menunjukkan permasalahan inefisiensi biaya terletak pada bagian *input* dibandingkan *output*. Hasil penelitian mendukung hipotesis ‘*Bad Management*’ yang dikemukakan oleh Berger deYoung (1997) dimana penurunan efisiensi biaya mengindikasikan kenaikan pada Non-performing loan. *Bad Management* hipotesis menunjukkan risiko terbesar yang dihadapi oleh Bank Umum di Indonesia disebabkan oleh faktor internal.

Keywords : Efisiensi Biaya, Data Envelopment Analysis, ‘*Bad Luck*’ dan ‘*Bad Management*’
